News about your Xfinity internet security

Norton “free” software no longer free

Xfinity xFi router (rent only) required

- **More complete protection – many devices**
- **You don’t have to install and update software**

Our Best Norton 360 Plans for Select Xfinity customers.

Your free Norton Security protection through Xfinity is going away soon and to ensure your devices stay protected for the days to come, below are two great offers for you to choose from. Our latest Norton 360 offers additional protection that your current security may not have including device protection, Dark Web Monitoring, Secure VPN and 50GB or more of PC Cloud Backup.
